# WHAT MAKES UP A PROCEDURAL TEXT?

1. Goals
2. Required materials
3. Clear Directions
4. Imperative sentences & technical vocabulary

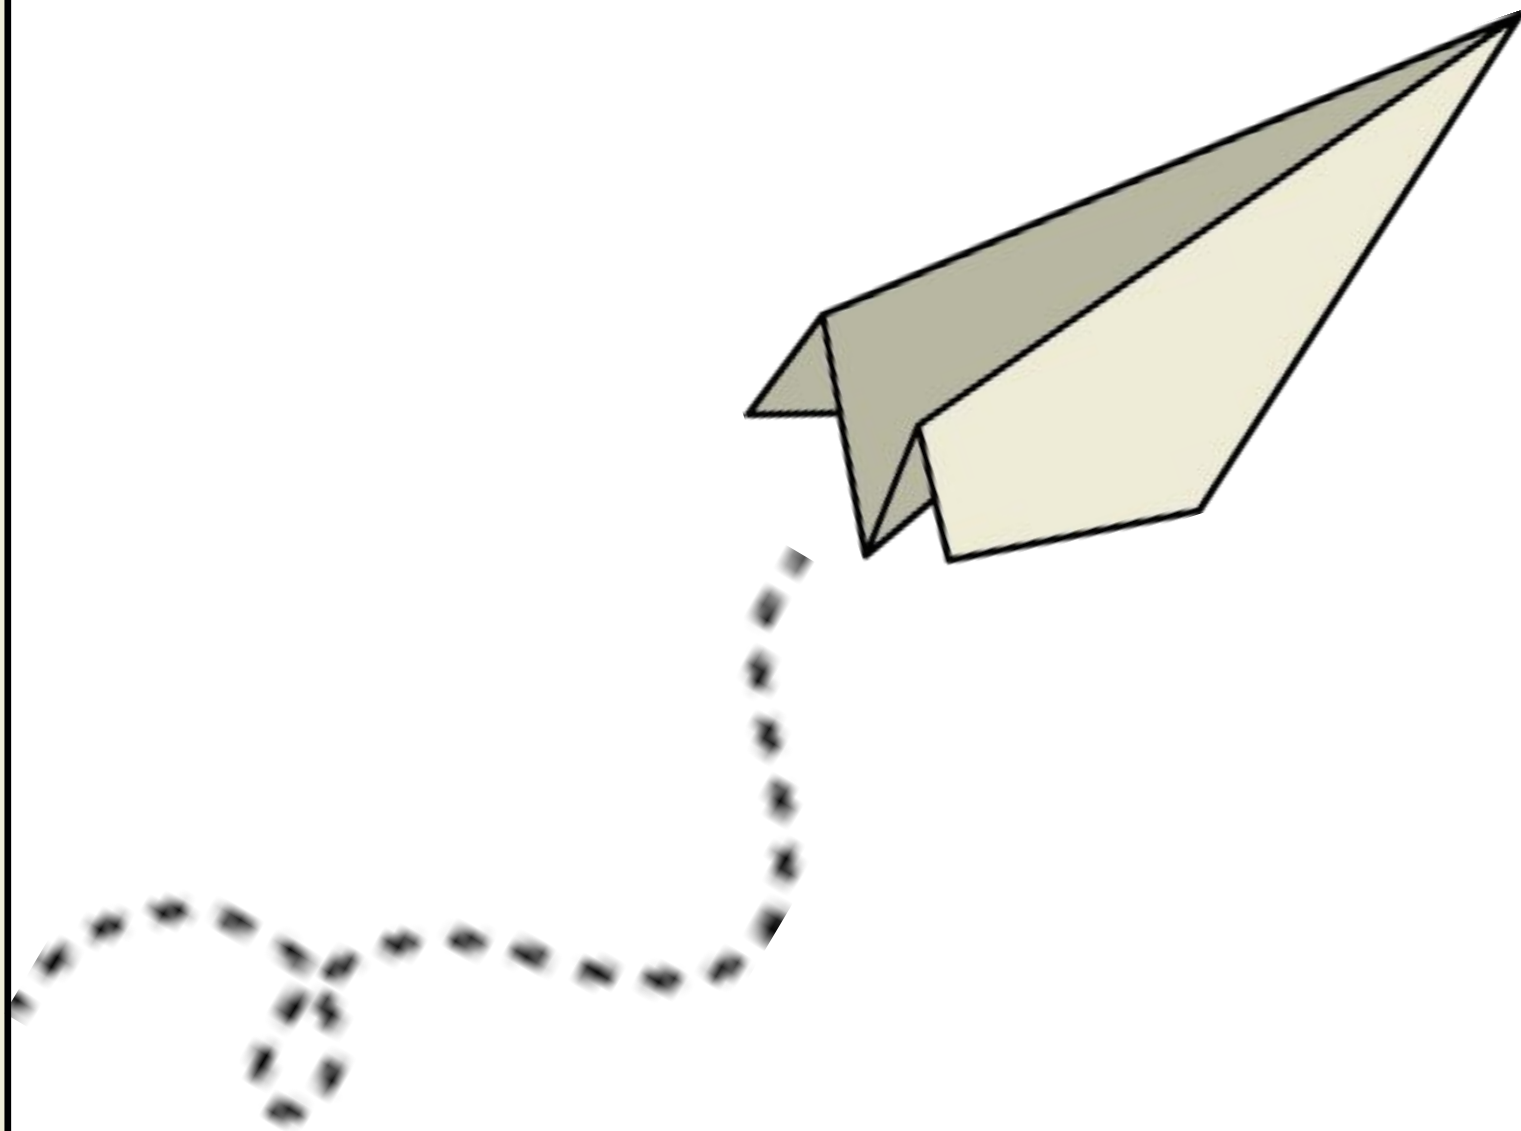

# ACTIVITY

## Preparing Paper Planes

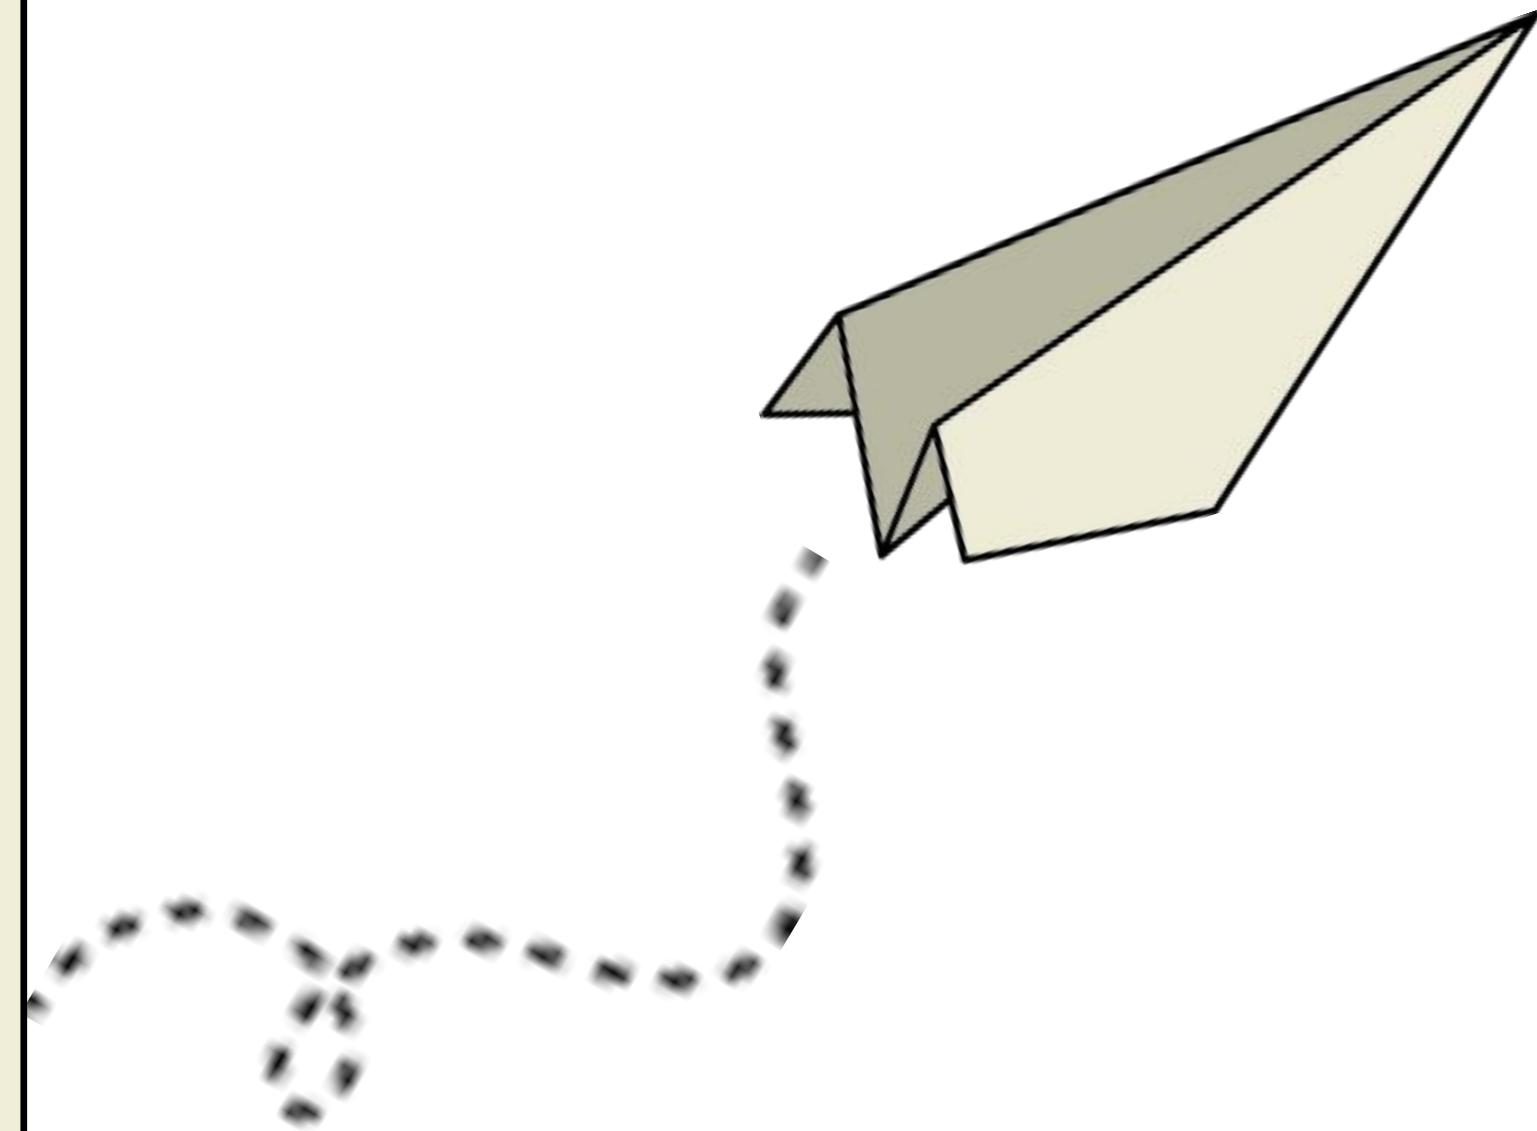

Goal: Make a paper airplane

# MATERIALS

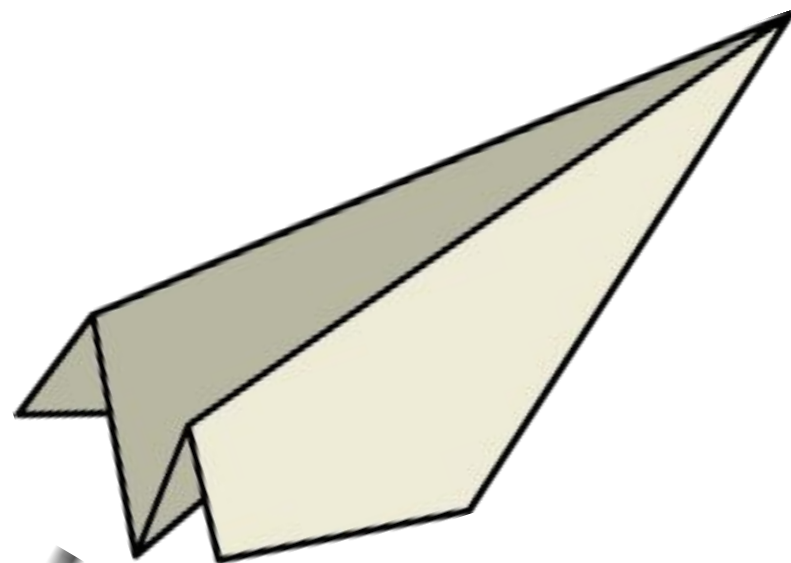

A piece of  
paper

# STEP 1

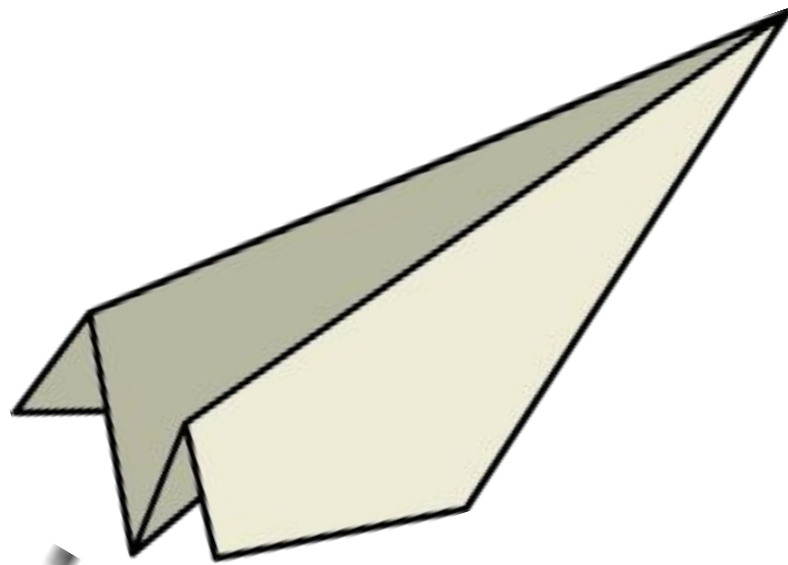

Fold paper

# STEP 2

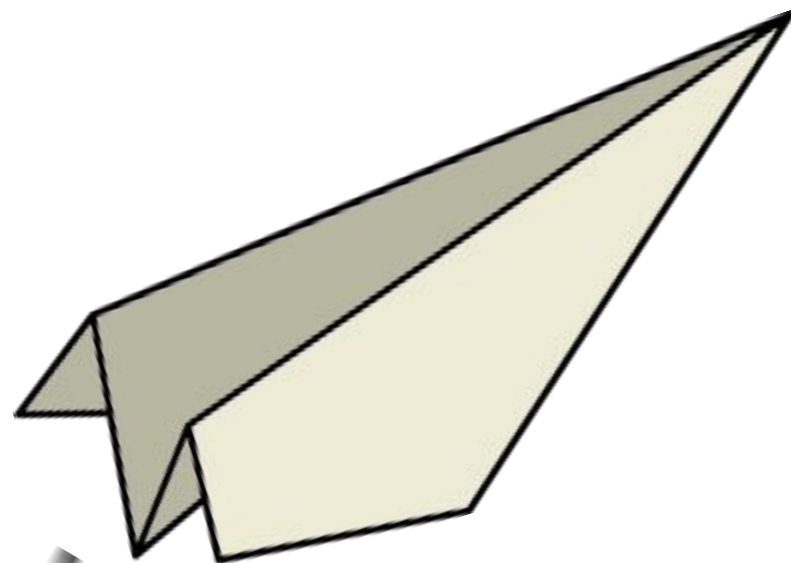

Fold corners  
inward

# STEP 3

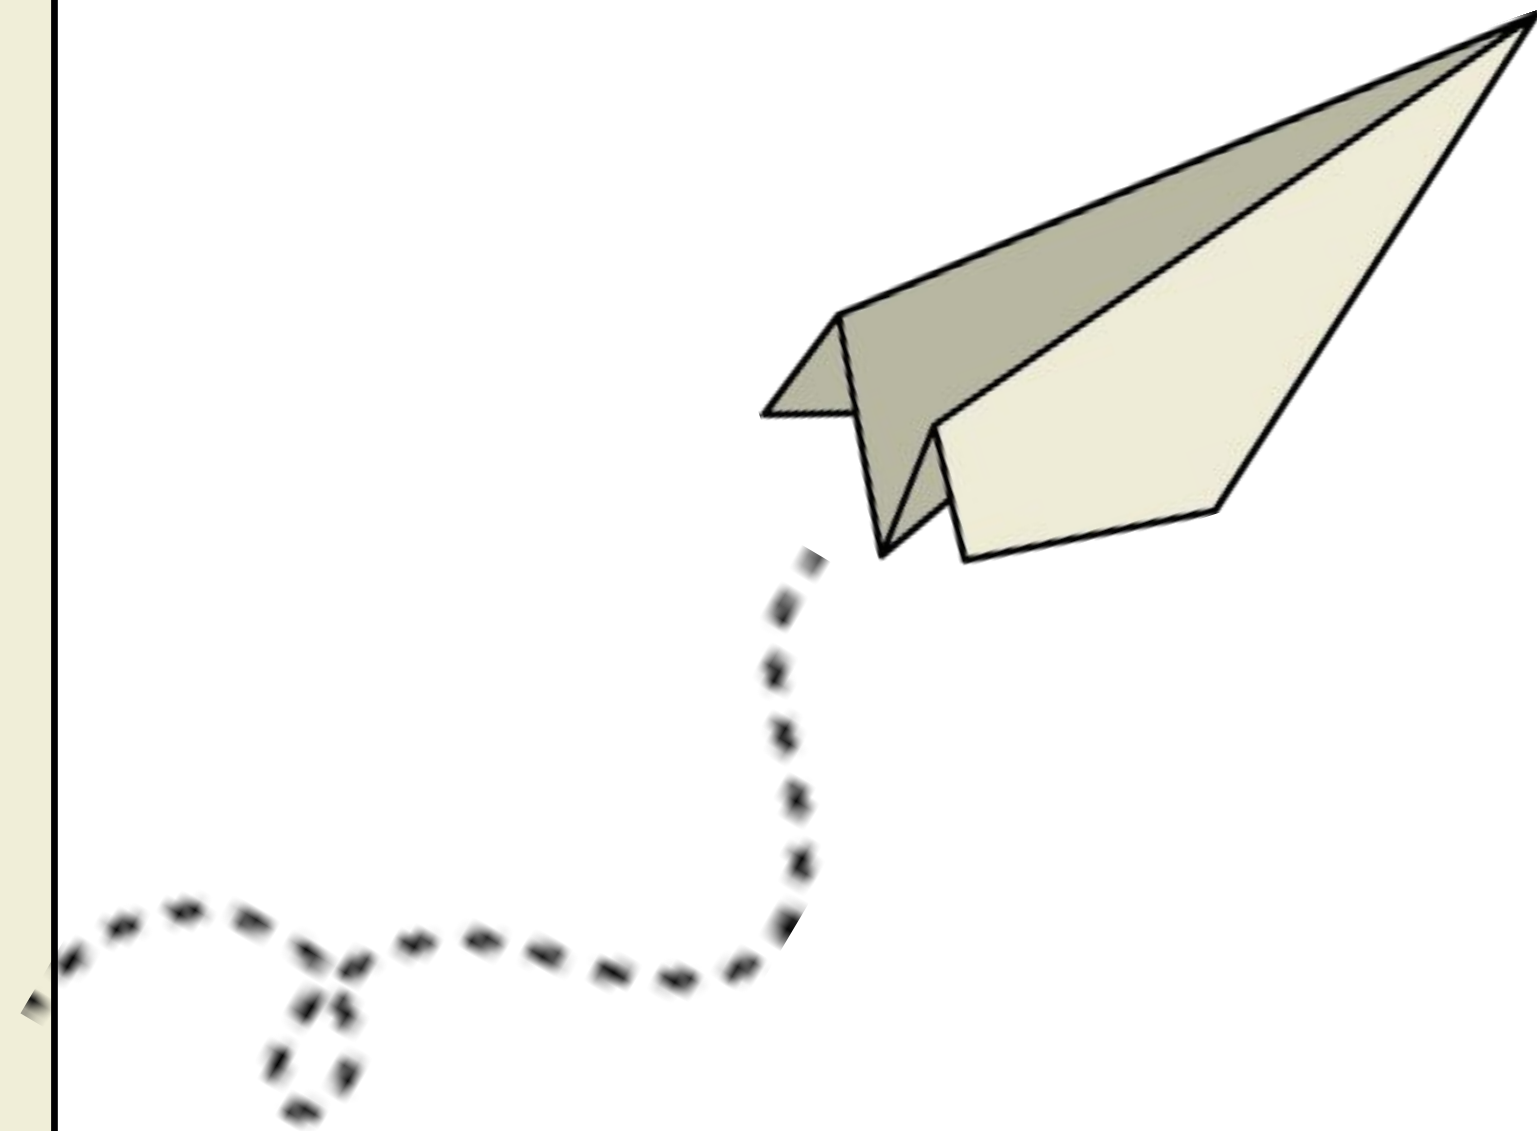

Fold the corners  
again to make a  
triangle

# STEP 4

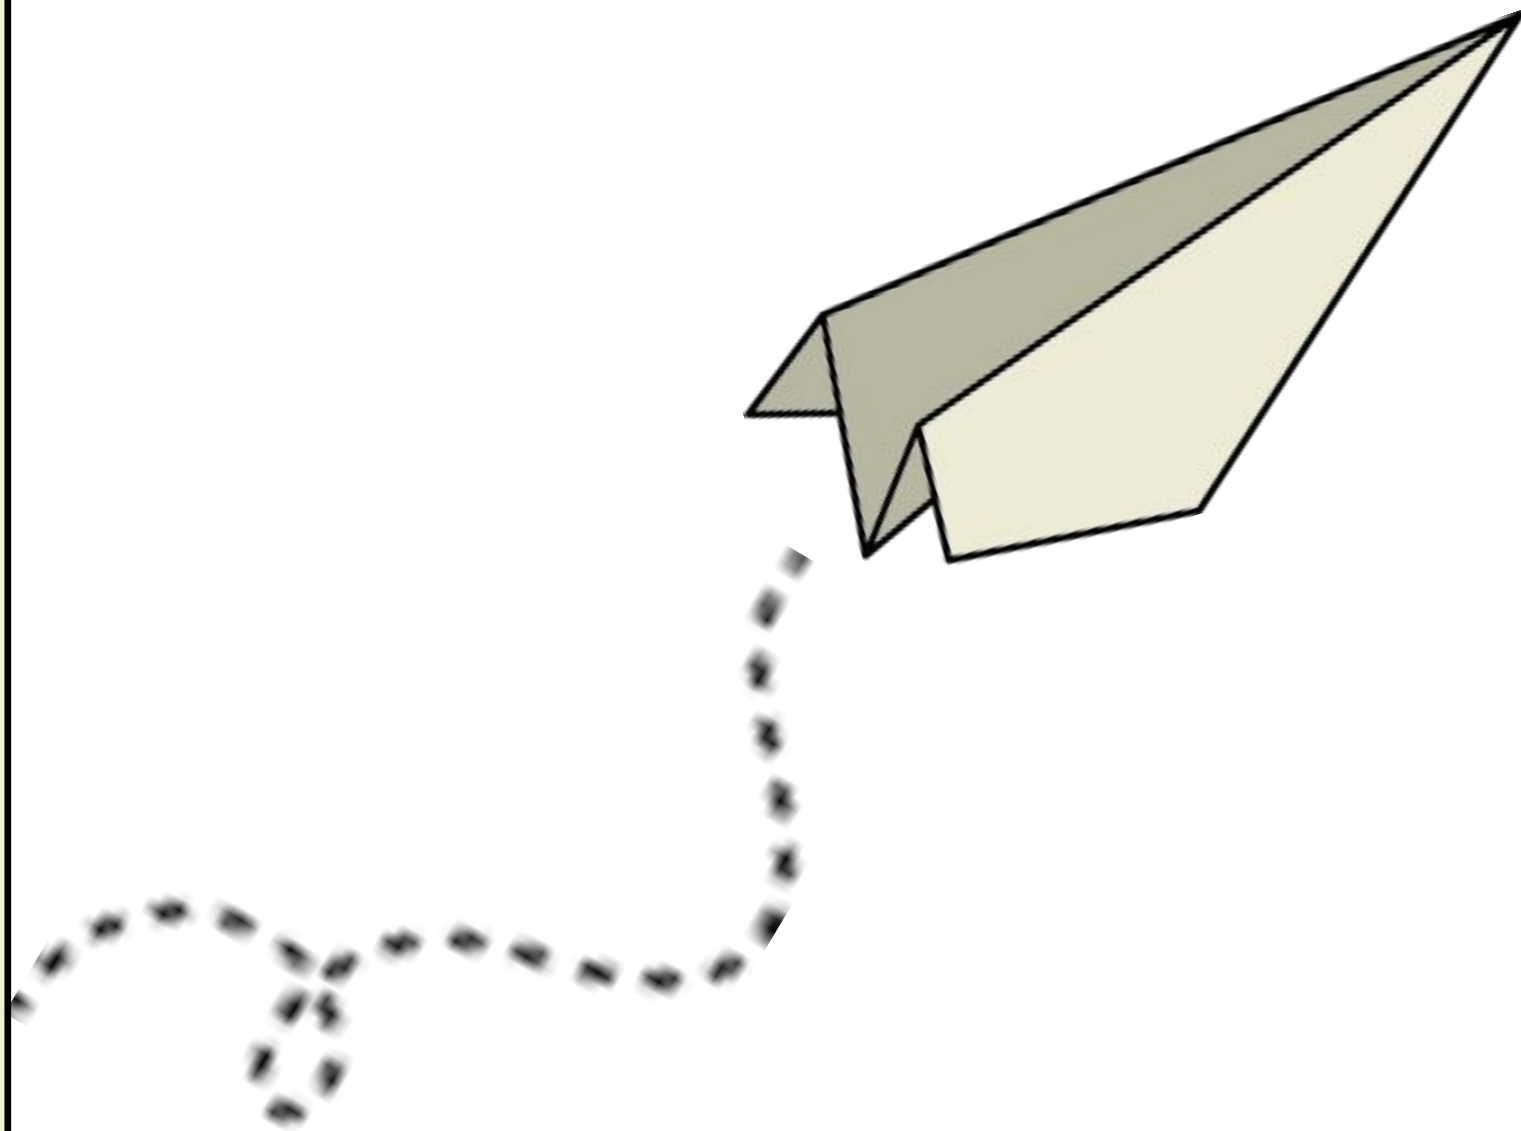

Fold corners of  
the triangle  
inwards

# STEP 5

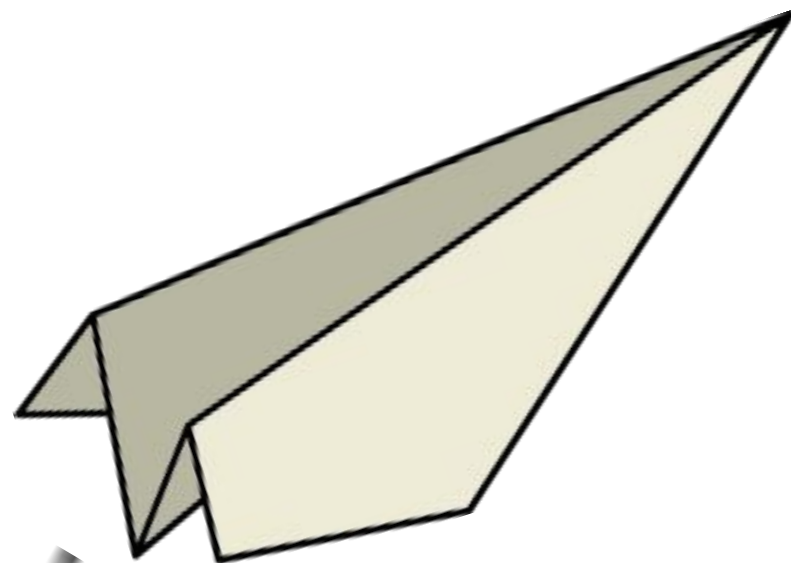

Fold small  
triangle back  
inwards, flip  
paper over

# STEP 6

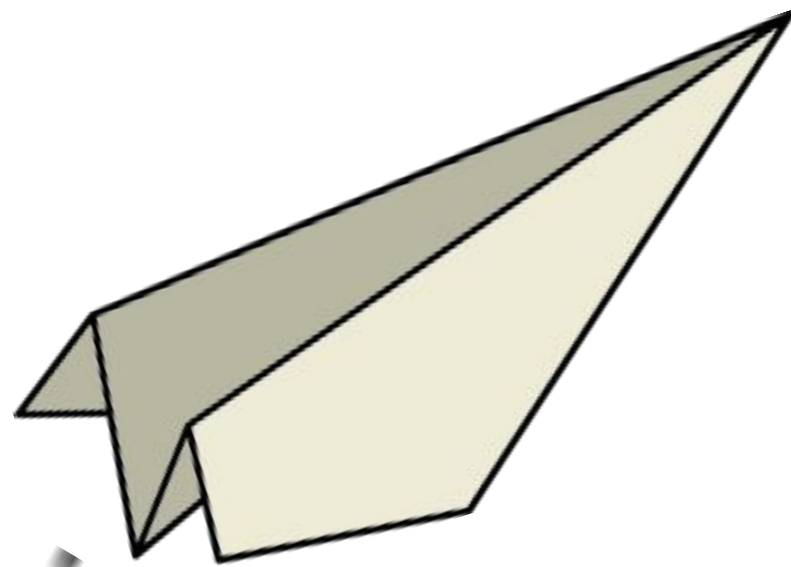

Fold bottom  
of the plane  
up

# STEP 7

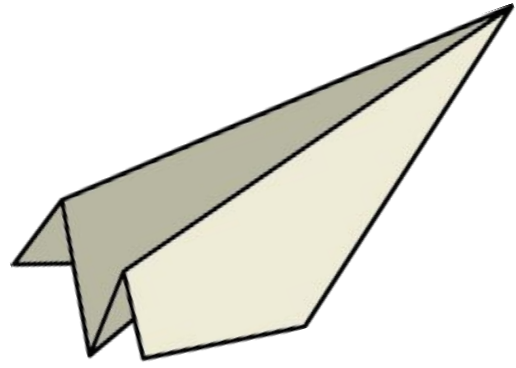

Fold top  
back down  
on both sides

# STEP 8

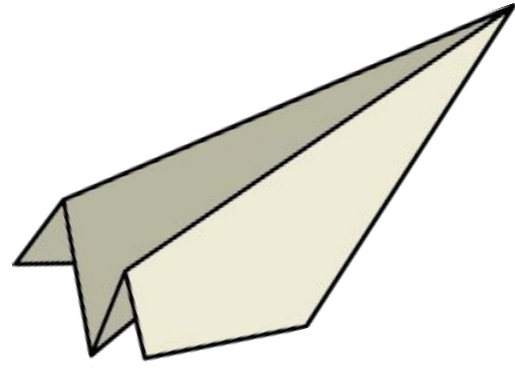

Write a #1 and your  
initials on one of  
the corners of your  
plane

# CONCLUSION

Now you have a paper  
plane ready to fly... can we  
do better?

# LETS TRY AGAIN!

Lets see if kidsplainer can help us  
make a better plane!

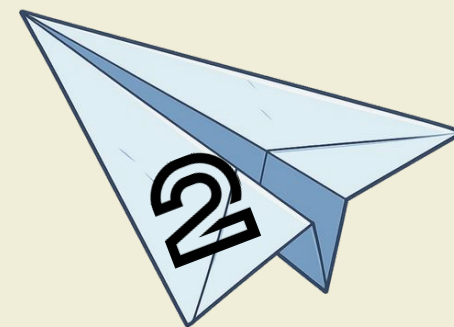

When complete: Write #2 and  
your initials on the new plane

# WHICH PLANE CAN GO

In the hall, we'll toss each plane  
to see which one goes further!

VS

# HOW IMPORTANT ARE DETAILS?

Ever made a peanut butter  
sandwich? Easy to explain  
right? Lets see!

# STUDENT EXAMPLES!

# STEP 1

Fold paper in  
half lengthways  
then reopen.

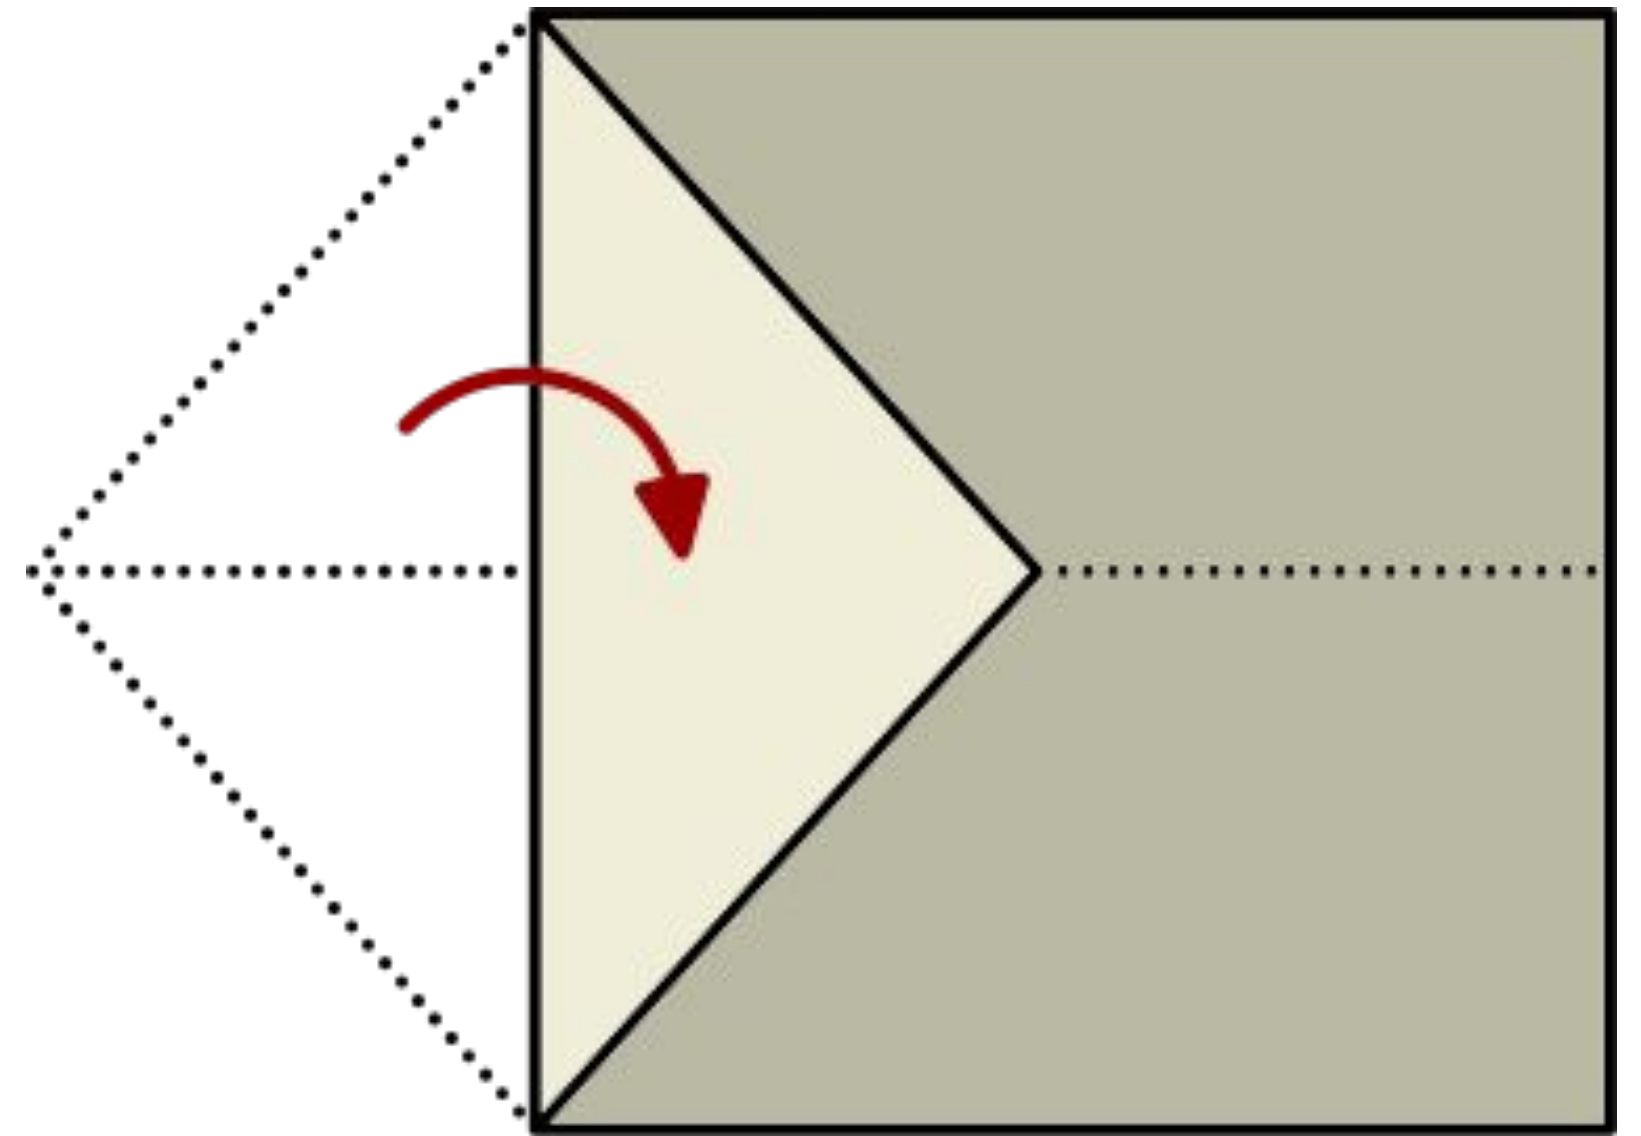

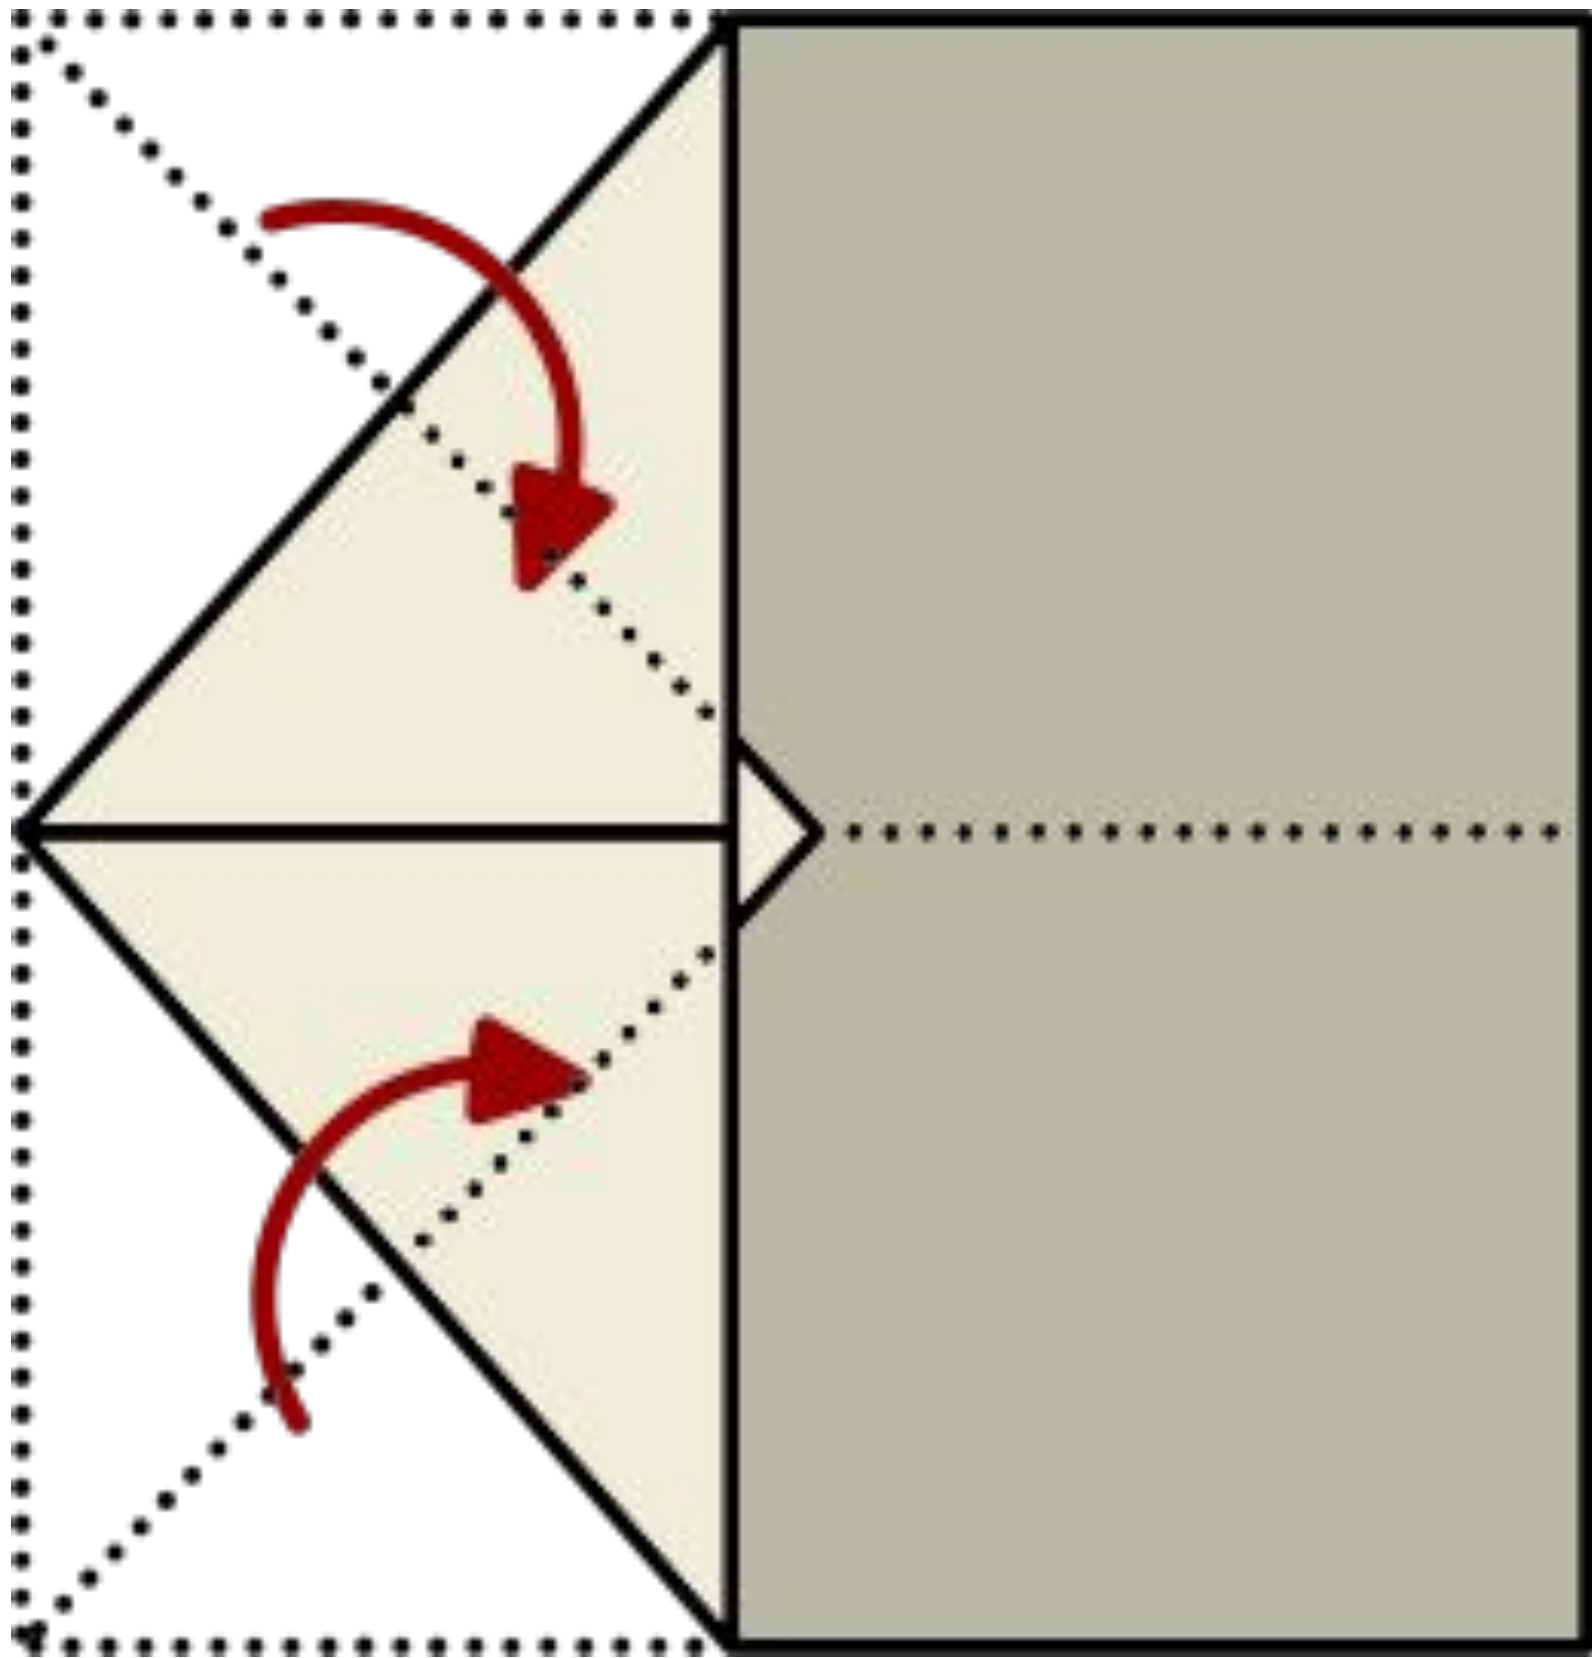

# STEP 2

Fold corners  
from one end  
inwards, to  
make two small  
triangles

# STEP 3

Fold the two  
small triangles  
inwards to make  
one large triangle

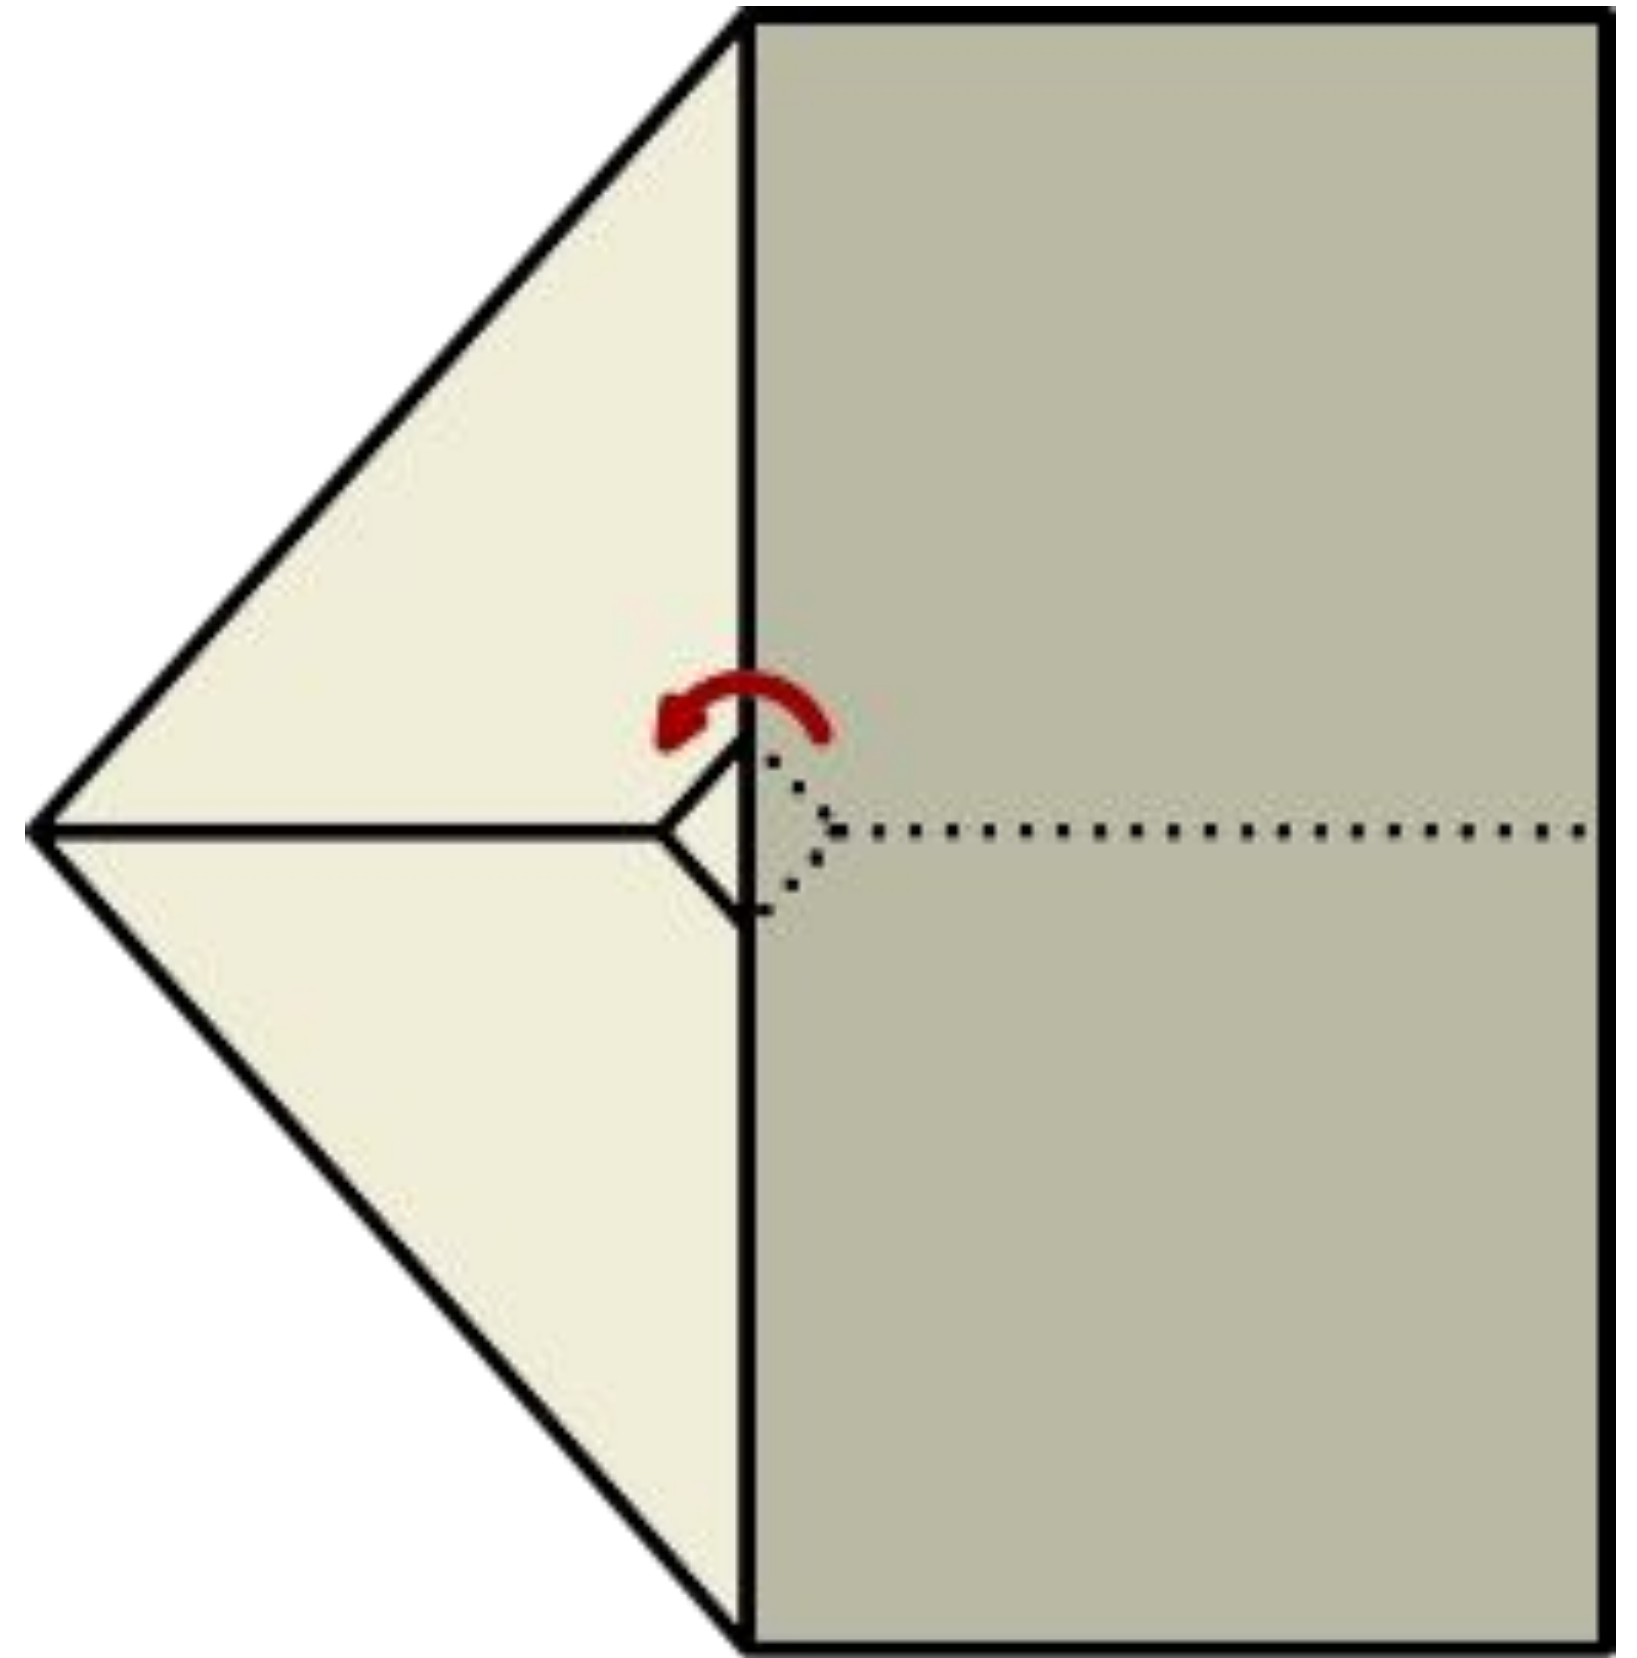

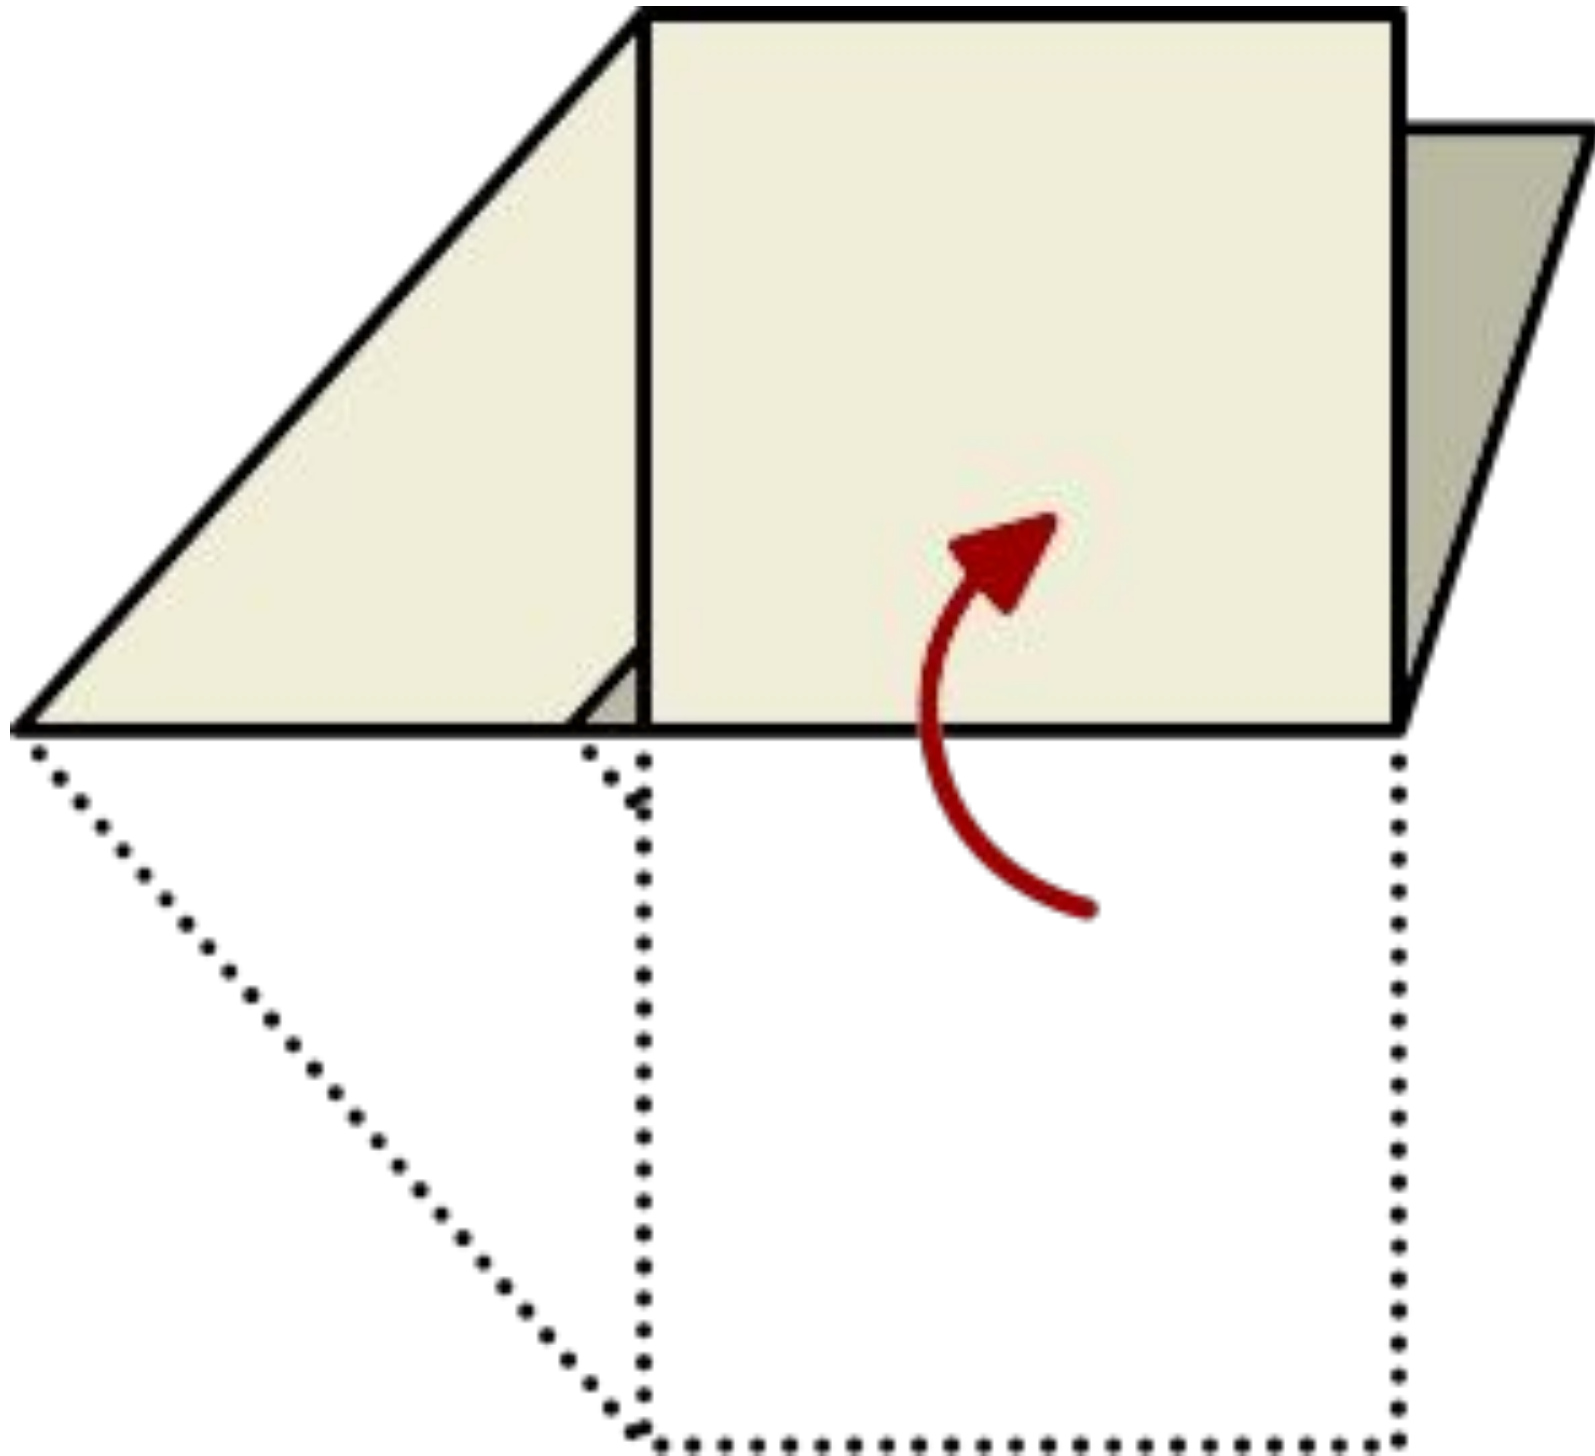

# STEP 4

Fold corners  
from ends of  
large triangle  
inwards, to the  
folded line

# STEP 5

Fold small  
triangle back.  
Flip paper over.

# STEP 6

Fold bottom of  
plane up to  
reinforce original  
fold.

# STEP 7

Fold top on open  
end back down to  
the centre  
crease. Do on  
both sides.
